Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: the Examiner and applicant's representative agreed that Yang's reference does not teach the configurations of claim 2 including the ~~cat~~ node having the connection as claimed. Regarding claims 4, 24, 37 which already have the similar configurations as claim 2 and therefore they are not anticipated by Yang. Regarding to the independent claims 1, 14, 15, 21, 34, applicant's representative agreed to incorporate all the subject matters claimed in claim 2 to overcome the Yang's reference. Applicant's representative will submit the amendments.
